

FOLI-R-PLUS™

K30 Complex

0-0-30

GUARANTEED ANALYSIS:

Soluble potash (K₂O).....30.00%

PLANT NUTRIENT SOURCES:

Potassium glucoheptonate.

FOLI-R PLUS PRODUCT INFORMATION:

- An advanced generation of plant nutrients complexed with organic acid to enhance nutrients availability and uptake by the plants.
- Super water-soluble plant nutrients for efficient crop use without chloride salts that can be toxic to plants.
- Is formulated for crops that require high potassium levels during early or late stage of growth.
- Contains natural organic acid and potassium complex

DIRECTIONS FOR USE:

“Foliar fertilization with primary nutrients will not provide the quantities required for normal plant growth. This product may cause foliar burn if applied in higher than recommended rates or concentrations. Use only as a supplement to a regular fertilization program”. Always follow the recommended rates of reliable Soil and Tissue Analysis. **FOLI-R-PLUS** is designed for foliar application and for injection through chemigation and sprinkler systems.

Sprinkler Irrigation: Apply at the rate of ½ -1 gal/acre with irrigation water. Inject **FOLI-R-PLUS** half an hour before end of irrigation cycle.

Foliar Application: Apply the recommended amount of **FOLI-R-PLUS K30 Complex** in at least 12 gallons (50 liters) water.

Corn: Foliar apply at 1 - 2 qts/acre at V6-V9. Repeat at VT.

Soybean: Foliar apply at 1 - 2 qts/acre at V5-V6. Repeat as needed.

Potatoes and Sugar Beets: Apply ½-1 gal/acre at 6-8 leaf stage or at tuber initiation. Foliar application of **FOLI-R-PLUS** is important to supplement the high potassium demands at Tuber Initiation and Bulking Stages.

Grain Crops: Apply **FOLI-R-PLUS** at the rate of 1/2 -1 gal/acre at flag leaf sheath opening or before early boot stage. Spray with at least 15 Gal water per acre.

Alfalfa: Apply **FOLI-R-PLUS** at the rate of ½-1 gal/acre in early spring. Repeat after each cutting. Spray with at least 15 Gal water per acre.

Vegetables, Cucurbits, Tomatoes, and Peppers: Spray at the rate of 1 qt /acre at the 3-4 leaf stage in at least 15 Gal water. Repeat every 2 weeks.

Compatibility: **FOLI-R-PLUS** is compatible with most fertilizers and registered pesticides. However, compatibility jar test and small plot test is recommended before large-scale treatments are started. Always refer to products label.

IMPORTANT NOTICE TO PURCHASER: Seller's and manufacturer's only obligation to a purchaser or user of this product shall be to refund the purchase price, or to replace the quantity purchased, of any defective product. In no event shall Seller or manufacturer be liable to a purchaser or user of this product for any claim for any or amage, direct or indirect, to any person or property. Purchaser of this fertilizer material expressly acknowledges and agrees to these terms.
