

FOLI-R-PLUS™

FOLIAR MICROBOOST

GUARANTEED ANALYSIS:

	BY WT.
Total Nitrogen (N)	1.0%
0.0 % ammoniacal nitrogen	
0.25 % nitrate nitrogen	
0.75% urea nitrogen	
Soluble Potash (K ₂ O)	1.0%
Boron (B)	0.50%
Copper (Cu)	0.35%
Iron (Fe)	0.25%
Manganese (Mn)	2.00%
Zinc (Zn)	2.00%
Molybdenum (Mo)	0.003%

PLANT NUTRIENT SOURCES:

Potassium glucoheptonate, boric acid, copper glucoheptonate, iron sulfate, iron glucoheptonate, manganese sulfate, zinc glucoheptonate and zinc sulfate, and molybdenum sulfate.

FOLIAR MICROBOOST PRODUCT INFORMATION:

- An advanced generation of plant micronutrients complexed with organic acids to enhance nutrients availability and uptake by the plants.
- **FOLIAR MICROBOOST** is formulated for crops that require immediate source of micronutrients at early or late stage of growth. It is recommended as a seed/plant starter and root growth enhancer. The high level of zinc in **FOLIAR MICROBOOST** may enhance the synthesis of enzymes and plant growth substances.

Caution: Keep Out of Reach of Children

DIRECTIONS FOR USE:

FOLIAR MICROBOOST micronutrients are recommended for use on all plants. **FOLIAR MICROBOOST** is intended to supplement and enhance a full fertilization program as recommended in accordance with reliable Soil and Tissue Analysis. **FOLIAR MICROBOOST** provides a source of immediately available nutrients but will not, by itself, provide all necessary nutrients required during the growing season. **FOLIAR MICROBOOST** is designed for foliar application and for injection through chemigation and sprinkler systems.

Foliar Application: Apply the recommended amount of **FOLIAR MICROBOOST** in at least 25 gallons water per acre.

Aerial Application: Dissolve the recommended amount of **FOLIAR MICROBOOST** in at least 8 gallons water per acre.

FOLIAR MICROBOOST contains **natural buffers** to help maintain nutrients available and to prevent interaction with glyphosate, for glyphosate ready crops.

CORN: Apply 8-32 OZ/acre **FOLIAR MICROBOOST** at V3-V6 stage. Repeat at V9 if necessary.

SOYBEAN: Apply **FOLIAR MICROBOOST** at the rate of 8-16 OZ/acre at V3-V6. Repeat at R3-R6.

GRAIN CROPS: Apply **FOLIAR MICROBOOST** at the rate of 8-16 OZ per acre before flag leaf sheath opening or before early boot stage.

HAY: Foliar apply 16-32 OZ/acre **FOLIAR MICROBOOST**. Apply as foliar 10-14 days after first cutting and repeat after each cutting.

TURF: Apply 2 OZ/1000 ft² early in the spring. Repeat as needed.

Compatibility: **FOLIAR MICROBOOST** is compatible with most fertilizers (including phosphates) and registered pesticides. However, compatibility jar test and small plot test is recommended before large-scale treatments are started. Always refer to products label.

TANK MIXING Fill the tank with half the water, add **FOLIAR MICROBOOST** and agitate to dissolve. Add dry formulations and dissolve, follow by liquids. Bring to volume with water. After thorough mixing, allow this mixture to stand for 5 minutes. If the combination remains mixed or can be readily remixed, it is physically compatible. Once compatibility has been proven, use the same procedure for adding products to the spray tank.

CAUTION: This fertilizer contains **boron** and should be used only as recommended. The use of this fertilizer on any crop(s) other than those recommended may result in serious injury to the crop(s). This fertilizer is to be used only on crops which respond to **molybdenum**. Crops high in molybdenum are toxic to grazing animals (ruminants).

IMPORTANT NOTICE TO PURCHASER: Seller's and manufacturer's only obligation to a purchaser or user of this product shall be to refund the purchase price, or to replace the quantity purchased, of any defective product. In no event shall Seller or manufacturer be liable to a purchaser or user of this product for any claim for any economic, indirect, special, incidental or consequential damages, or for any injury, loss or damage, direct or indirect, to any person or property. Purchaser of this fertilizer material expressly acknowledges and agrees to these terms.
