

**FOLI-R-PLUS™**  
**3% MOLYBDENUM COMPLEX**  
 Complexed with Organic and Amino base

**GUARANTEED ANALYSIS:**

**By Weight (%)**

Molybdenum (Mo) ..... 3.0

**PLANT NUTRIENT SOURCES:**

Molybdic acid complexed with organic and amino base.

**PRODUCT INFORMATION:**

- Read the label carefully before use
- Molybdenum is very essential for nitrogen conversion to amino acid and esp. essential for nitrogen fixing bacteria. Molybdenum deficiency is associated with low pH soils and sandy soils. Soil/tissue test is always recommended.
- An advanced generation of plant nutrients complexed with organic and amino base to enhance nutrients availability and uptake by the plants.

**DIRECTIONS FOR USE**

**FOLI-R PLUS™** plant nutrients are recommended for use on all plants. **FOLI-R PLUS™** is intended to supplement and enhance a full fertilization program as recommended in accordance with reliable Soil and Tissue Analysis. **FOLI-R PLUS™** provides a source of immediately available nutrient but will not, by itself, provide all necessary nutrients required during the growing season. **FOLI-R PLUS™** is designed for foliar application and for injection through chemigation and sprinkler systems.

**Sprinkler Irrigation:** Apply at the rate of 1-4 OZs/acre with irrigation water. Inject **FOLI-R PLUS™** half an hour before end of irrigation cycle.

It is preferred that **Molybdenum 3% Complex** to be mixed with nitrogen fertilizers at the rate of 2.5 -5 gal per 1000 Gal UAN 28 or 32. Apply Nitrogen as recommended by soil and tissue tests.

**Foliar Application:** Apply the recommended amount of **FOLI-R PLUS™** in at least 25 gallons water per acre.

**Corn:** Apply 3% Molybdenum complex with nitrogen fertilizer to assist in nitrogen metabolism and nitrogen use efficiency. Recommended rate is 0.5 - 4 OZ per acre.

**Grain Crops:** Apply at the rate of 0.5-2 OZ/acre at flag leaf sheath opening or before early boot stage.

**Soybean:** 3% Molybdenum complex is very effective as a seed treatment at the rate of 1 OZ/acre mixed thoroughly with the seeds. to symbiotic bacteria and nitrogen fixation. Molybdenum aids symbiotic bacteria in nitrogen fixation

**Warning:** This fertilizer contains Molybdenum and to be used on soils which responds to Molybdenum. Crops high in Molybdenum are toxic to grazing animals (ruminants). Do not exceed the recommended rate.

**Compatibility:** **FOLI-R PLUS™** is compatible with most fertilizers and registered pesticides. However, compatibility jar test and small plot test is recommended before large-scale treatments are started. Always refer to products label.

**IMPORTANT NOTICE TO PURCHASER:** Seller's and manufacturer's only obligation to a purchaser or user of this product shall be to refund the purchase price, or to replace the quantity purchased, of any defective product. In no event shall Seller or manufacturer be liable to a purchaser or user of this product for any claim for any economic, indirect, special, incidental or consequential damages, or for any injury, loss or damage, direct or indirect, to any person or property. Purchaser of this bag of fertilizer material expressly acknowledges and agrees to these terms.
