

FOLIAR MICROBOOST

GENERAL INFORMATION:

Foliar MicroBoost is an advanced blend of essential plant trace minerals. Each mineral in *Foliar MicroBoost* is individually chelated with organic and amino acids to prevent nutrient interactions and tie up and enhance plant absorption.

GUARANTEED ANALYSIS:

Total Nitrogen (N).....	1.0%
0.25% Nitrate Nitrogen	
0.75% Urea nitrogen	
Soluble potash (K ₂ O)	1.0%
Boron (B).....	0.50%
Copper (Cu).....	0.35%
Iron (Fe).....	0.25%
Manganese (Mn).....	2.00%
Molybdenum (Mo)	0.003%
Zinc (Zn).....	2.00%

Foliar MicroBoost

a trace mineral supplement to a full fertilizer program, providing immediately available trace minerals

designed for foliar application on all plant types

Corn: Apply at the V3-V6 stage and V9

Soybeans: Apply at the V3-V6 stage and R3-R6

Small Grains: Apply before flag leaf sheath opening or before early boot stage

Hay: Apply at spring green up and 4-7 days after each cutting

Foliar Application: Apply 8 to 32 ounces, in accordance with crop recommendations, with at least 10-25 gallons water or spray solution per acre.

Application with Glyphosate: *Foliar MicroBoost* contains natural mineral chelation specific to each mineral to prevent tie up with other minerals or chemicals, including glyphosate.

Compatibility: *Foliar MicroBoost* is compatible with most fertilizers (including phosphates) and registered pesticides. However, compatibility jar test is strongly encouraged before mixing. Always refer to products label.
